

S SHELL BAG
2022

Childhood is a magical time full of carefree games and unforgettable adventures. When we additionally give children the opportunity to pack "necessary things" in practical bags or backpacks, which will be enriched with interesting and colourful designs, we are sure that it will awake in them more desire to spend time outdoors.

Our collections are made in Poland, in one of the biggest printing houses in Europe in TOPQ in Gdansk and this is also where Shellbag is headquartered.

If you are in the vicinity, please feel free to visit us.

Our products are created using innovative printing techniques and selected, high quality fabrics. Each project is our own original idea, which is always in line with current trends.

Our goal is to create something unique with an interesting design and excellent quality.
